Expandable and affordable for growing businesses

The HP ProLiant ML150 G6 Server now supports Intel® Xeon® 5500 series processors, delivering enhanced compute performance. It also brings huge improvements in memory capacity, storage and deployment options, making it expandable and affordable for growing businesses.

With next-generation Intel processors and essential remote management features, the ML150 G6 lower server provides advanced server functionality and outstanding value at an entry-level price point. In addition, high efficiency redundant power supply and

redundant fan options provide greater power and thermal protection to keep your business running.

There are also hot-pluggable hard disk drives (HDDs) and optional RAID controllers that can help limit network downtime. In addition, with data security being a major concern today, the Trusted Platform Module (TPM) option can prove useful through its support for data encryption.

Designed to meet your IT needs today, while providing new capabilities for the future, the HP ProLiant ML150 G6 is well suited for small to medium businesses as well as compute-intensive cluster environments that require dependable server performance.
